

# Identification of results publications

Thank you for contributing to the systematic search for results publications of Nordic clinical trials. Before starting, please read the [search manual](#).

This form should be filled out separately for each potentially eligible results publication.

**Questions?** See the Q&A section of the [search manual](#) or email [caxfors@stanford.edu](mailto:caxfors@stanford.edu). We welcome questions - it's better to ask one too many than too few.

**Comments?** There is a **designated field for comments** at the end of this form. *Please don't leave comments in other fields.*

---

\* Anger obligatorisk fråga

## 1. Extractor \*

*Markera endast en oval.*

- ☐ Cathrine A
- ☐ Johan B
- ☐ Tungamirai B
- ☐ Ronak B
- ☐ Matteo B
- ☐ Till B
- ☐ Marek C
- ☐ Nicole H
- ☐ Perrine J
- ☐ Sofia K
- ☐ Tomasz K
- ☐ Shai M
- ☐ Natasha O
- ☐ Martin R
- ☐ Max S
- ☐ Karolina S
- ☐ Mateusz W
- ☐ Susanne W
- ☐ Samruddhi Y
- ☐ Emmanuel Z
- ☐ Themis P
- ☐ Luca H
- ☐ Carolina C
- ☐ Frank G
- ☐ Jan-Ole H
- ☐ Katarzyna K
- ☐ Karely L
- ☐ Eero R
- ☐ Shreya R
- ☐ Aminul S

- ☐ Tarik S
- ☐ Kim B
- ☐ Lars S
- ☐ Love A

2. Trial ID (EudraCT number or NCT ID, see your trial sheet and please take care to avoid typos) \*
- 

### Results publication search

See the [search manual](#) for instructions.

3. Did you find any potentially eligible results publication?  
If you're in doubt, click Yes and continue to the next section.

*Markera endast en oval.*

- ☐ No, neither linked in the registry (search step 1) nor through the systematic Google searches (search steps 2-3) *Fortsätt till fråga 15*
- ☐ Yes

*Fortsätt till fråga 4*

### Potentially eligible results publication

Report only 1 potentially eligible results publication at a time. If you found more than one for this trial, then reuse the same link again after submitting the previous.

Please don't leave comments in other sections than the designated comment questions.

What is a DOI? See <https://apastyle.apa.org/learn/faqs/what-is-doi>

What is a PubMed ID (PMID)? See <https://uwyo.libanswers.com/faq/176930>

4. Link to article \*

Use a link that includes the DOI if there is such a link. Even if you're unsure of the eligibility, please include the link (and answer the questions as appropriate below).

(Note: If this publication shares the exact same URL as for another publication that you've previously extracted for this trial, then don't extract it again.)

---

## 5. Article DOI (always starting with "10") \*

If none is available, enter "NA".

---

## 6. Is there a PubMed ID (PMID)? \*

This is an 8-digit number.

*Markera endast en oval.*

☐ Yes      *Fortsätt till fråga 13*

☐ No      *Fortsätt till fråga 14*

7. Where/how did you find this article? \*

("Other" can be for example if you found it as a cross-reference in another article. Keep this note very short and leave comments at the end of the form)

*Markera endast en oval.*

☐ Linked at the registration

☐ Systematic Google search

☐ Övrigt: \_\_\_\_\_

**Eligibility**

See the [search manual](#) for eligibility criteria.

## 8. What type of results publication is this? \*

Markera endast en oval.

☐ Journal publication

☐ Preprint

☐ Övrigt: \_\_\_\_\_

## 9. Is the publication matched to the registration on these criteria? Check the boxes that match.

(We only extract publications that potentially match on all criteria, or, all criteria except one)

*For "comparator": leave that box unchecked only if this criterion is applicable and it doesn't match.*

Markera alla som gäller.

☐ Study design (intervention model, randomization, masking)

☐ Indication/population

☐ Intervention/treatment

☐ Comparator (if applicable). If there is no comparator, tick the box.

☐ The publication's primary outcome measure is listed as an outcome measure in the registration (whether as primary or not). If the publication has several primary outcome measures, the rule applies for at least one of them. If the publication has no primary outcome measure assigned, the rule applies to the first outcome measure mentioned.

## 10. Comments? If this was a "near match" (matched on all criteria except one) or if you were unsure about any criterion, please leave your comments here:

---

---

---

---

---

11. What trial registration numbers were noted in the article? \*

Select all that apply

*Markera alla som gäller.*

- ☐ EudraCT number (EUCTR), for example "2005-000217-35"
- ☐ NCT ID (ClinicalTrials.gov), for example "NCT00339118"
- ☐ None
- ☐ Övrigt: \_\_\_\_\_

12. If you found another trial registration number than EudraCT number or NCT ID, enter it here (even if you're unsure). Separate several numbers with a semicolon.

\_\_\_\_\_

PubMed ID (PMID)

This is an 8-digit number.

13. Enter the PMID here: \*
- (This is an 8-digit number)

\_\_\_\_\_

*Fortsätt till fråga 15*

Publication date

*Technical note: For publications without PubMed ID (PMID), we extract the publication date manually since that can't be done automatically later.*

14. Enter the publication date. If there are several to choose from (e.g., electronic and printed version of the publication), use the earliest. \*

\_\_\_\_\_

*Exempel: 7 januari, 2019*

Final comments?

15. Any comments on the extraction can be entered here. Don't miss to click "submit"!
